ENERGY QUARTERBACK

EPIC SYMPOSIUM 2021

Paul Donahue

Co-Founder | CTO

2021 Thanksgiving Day, Southern California 100,000 Homes Power Shutoff Without Warning For 24 - 48 Hrs

Utility Response

***“We’re not responsible for power outages, food loss,
or property damage.”***

Utility PSPS Thanksgiving Day Predicament

- 7kw Solar** Solar Power Locked Out By Utility
- Battery** Up to 5-Wall Battery Units (50 kWh) + Auto Transfer Switch
- EV Battery** Requires 50% EV Mileage Range + Automatic Transfer Switch

EQB's PSPS Thanksgiving Day Solution

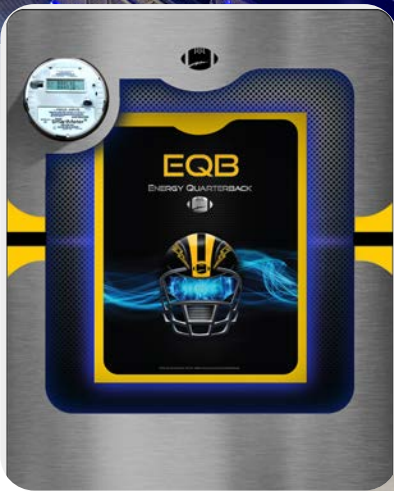

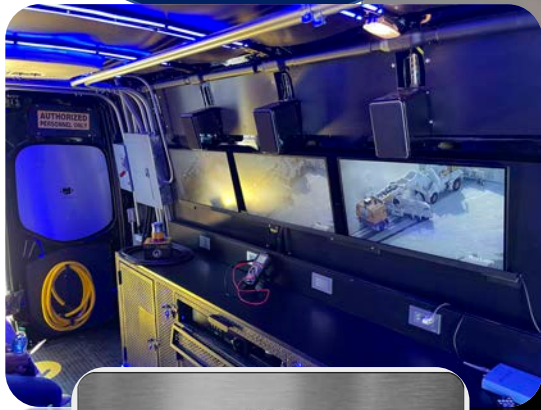

- 7kw Solar** Liberates Your Solar To Power Thanksgiving Day
- Battery** Works With Low Cost 48volt Battery for Nighttime
- EV Battery** Requires Less Than 10% of Your EV Mileage Range

EQB Installation at University of California, Irvine APEP

November 3rd 2021 EQB Demonstration to SDG&E Executives
